Arctic hare mask! (5 - 8 years old)

Become an arctic hare with winter coat ...

Instead of confetti . . .throw ice crystals that you have drawn !

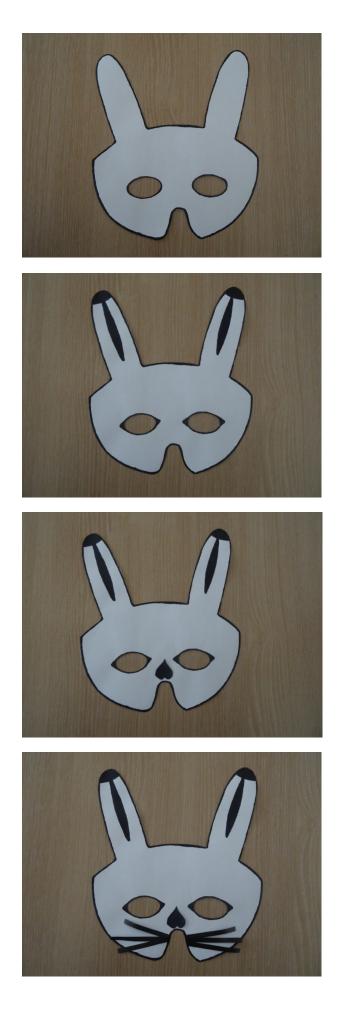

You will need:

- thick piece of paper
- +/- 32 cm (12") of elastic string
- ribbon or yarn for the whiskers
- black marker
- scissors, glue, stapler

To print this pattern, see on the previous page. Trace it on a thicker white piece of paper.

Cut out the mask.

For cutting the eyes out, ask an adult for help.

Using a black marker, color the in ears as shown in the picture . . .

Then draw a big heart instead of the snout (nose) . . .

Cut pieces of string and glue them in place of whiskers . . .

Carefully draw a black line on the edges of the mask !!!

Cut +/- 32 cm (12") of elastic string.

Use a stapler to attach the elastic to the back of the mask,

(a little higher than eye level)

With his white winter coat, the arctic hare almost goes unnoticed in the snow. . .

When wearing your disguise, remind people you meet how important it is to protect the climate !
