

Bear card 3D ... polar pop up (for all)

Easy to make and to use for all occasions !!!

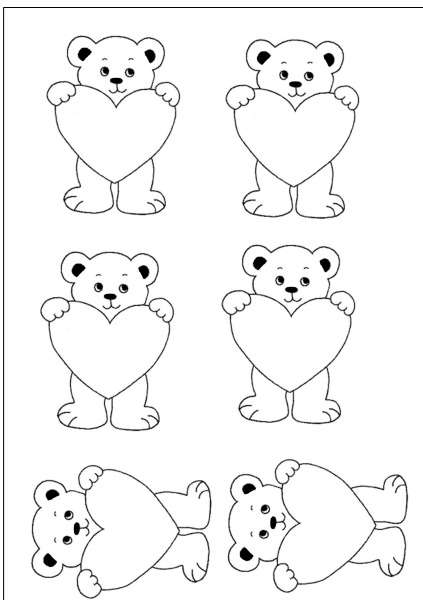

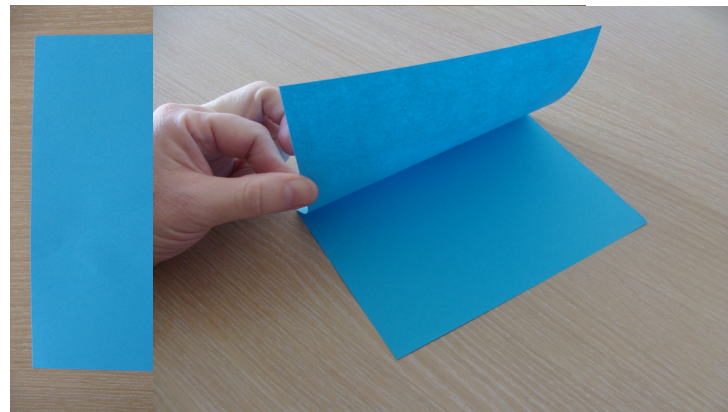

You need :

- blue and white sheets of paper to print
- Q-tip
- white paint
- marker, scissors
- ruler, glue
- envelopes

Cut a blue sheet of paper in half . . .

Fold each 1/2 sheet in half as shown in the picture.

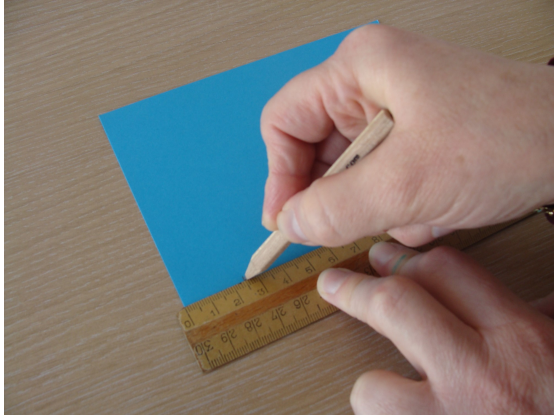

To print the pattern see on de previous page

*Glue the bear on the folded sheet
and color the heart.*

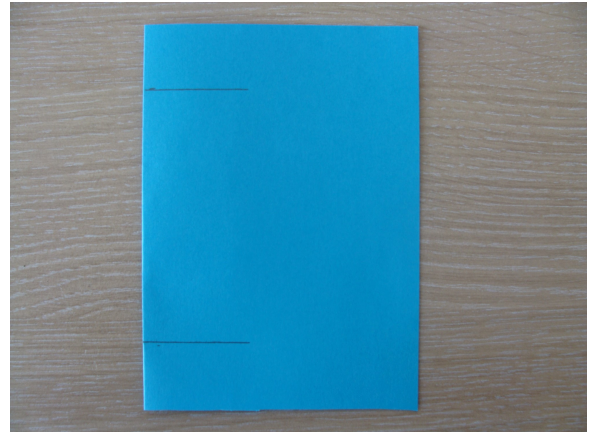

*!!! The fold should be left !!!
Dip a Q-Tip in white paint and
dab it around the bear . . .*

You have beautiful snowflakes !!!

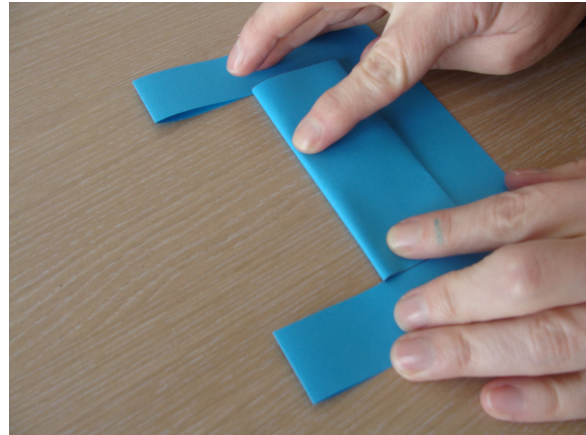

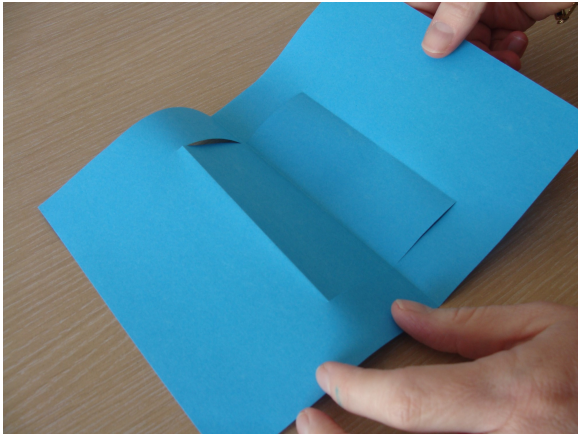

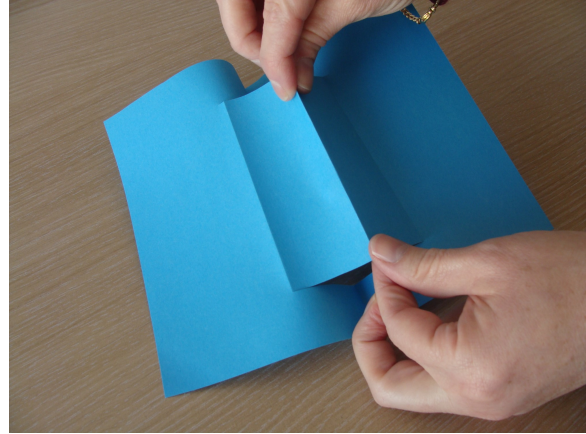

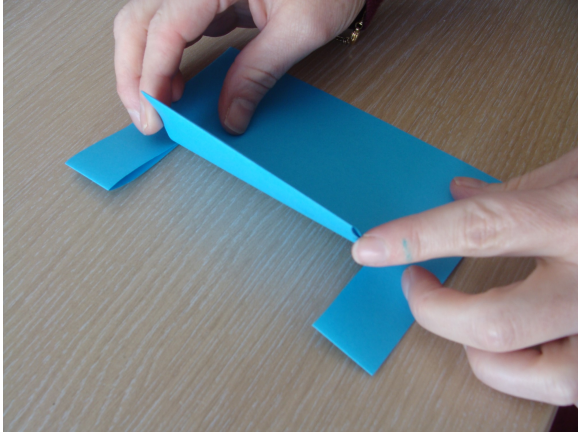

On the other half of the folded sheet, draw a horizontal line of 4cm from 2,5 cm of each edge.

!!! The fold should be left !!!

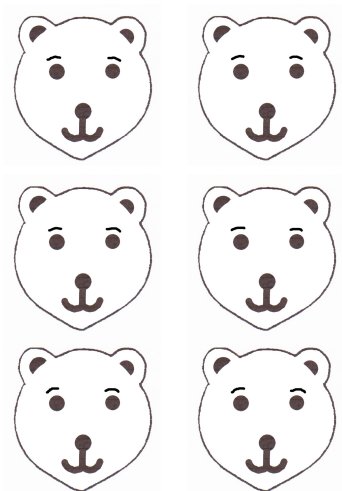

Cut on the drawn lines . . .

Fold at the end of the cuts, as shown in the picture. Mark the fold . . .

Then open the sheet and pull out the small center fold.

Look at the pictures . . .

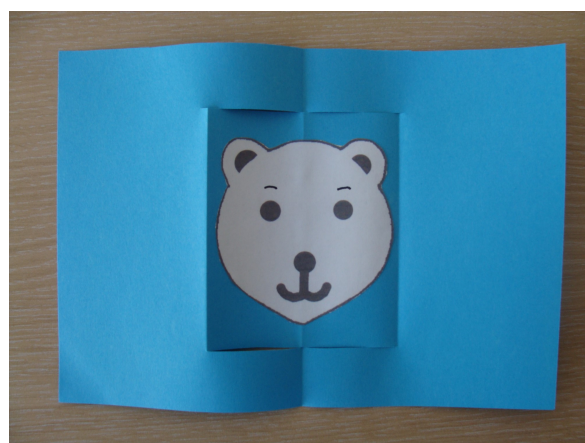

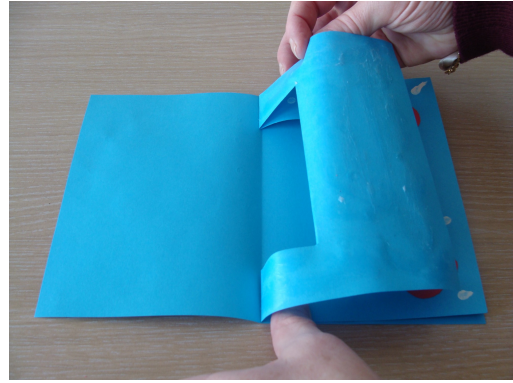

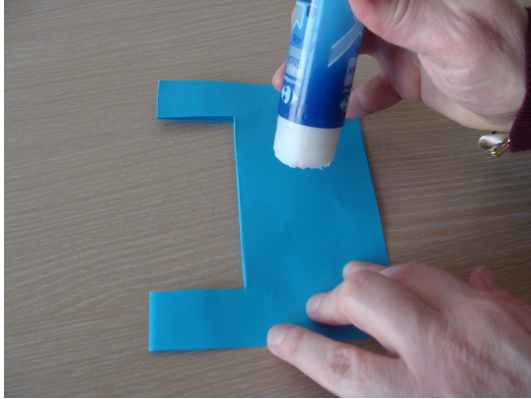

*To print the head of the bear see
on the previous page*

Cut it out.

Glue it ont the center fold paper.

Re-press the fold !!!

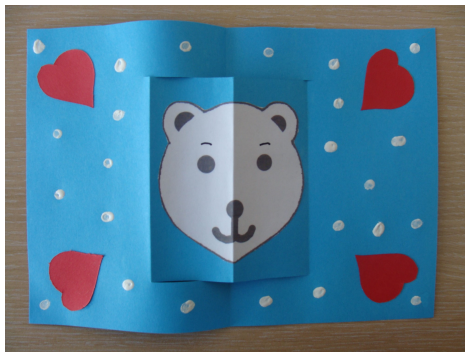

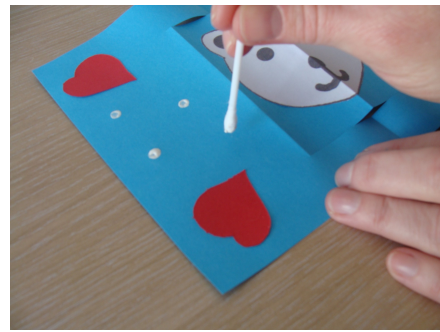

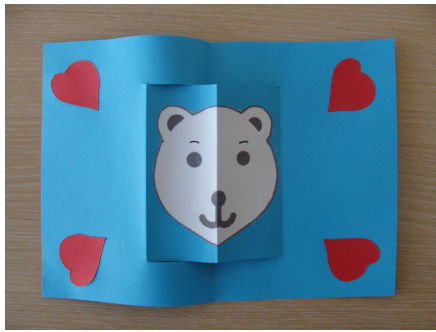

Put glue on the half face of the inner sheet . . .

*then paste it on the outer sheet by matching the center fold.
Pay attention to the direction of the drawings !!!*

Do the same with the other half face . . .

Add colored hearts

and snowflakes . . .

*Now it only remains to put
together the 2 parts of the card !!!*

Put it in an envelope !!!
